DETAILED ACTION

Response to Amendment

1. The amendment filed February 7, 2007 has been entered and claims 59 and 61 have been cancelled.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 1, 3-17, 19-25, 27-33, 35-49, 51-56 directed to a species non-elected without traverse. Accordingly, claims 1, 3-17, 19-25, 27-33, 35-49, 51-56 have been cancelled.

Allowable Subject Matter

3. Claims 2, 18, 26, 34, 50, 57, 58, 60 and 62 are allowed.

4. The following is an examiner's statement of reasons for allowance: Fukuyama et al. USPN 6,831,406, a closely related art, discloses a blue organic light emitting device comprising: a first mixed region comprising a hole transporting material and a host material; a second mixed region comprising the host material and an electron transporting material; and a light emitting region which does not include the hole transporting material and the electron transporting material. However, claims 2 and 34 require the light emitting region comprise the host material and a blue light emitting material doped into the host material. The above limitations in combination with other claim limitations are not taught or fairly suggested by the prior art nor would it be obvious to modify the references of record so as to yield the device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
